Breaking New Ground

Innovation Sustainability Productivity

RELATORI

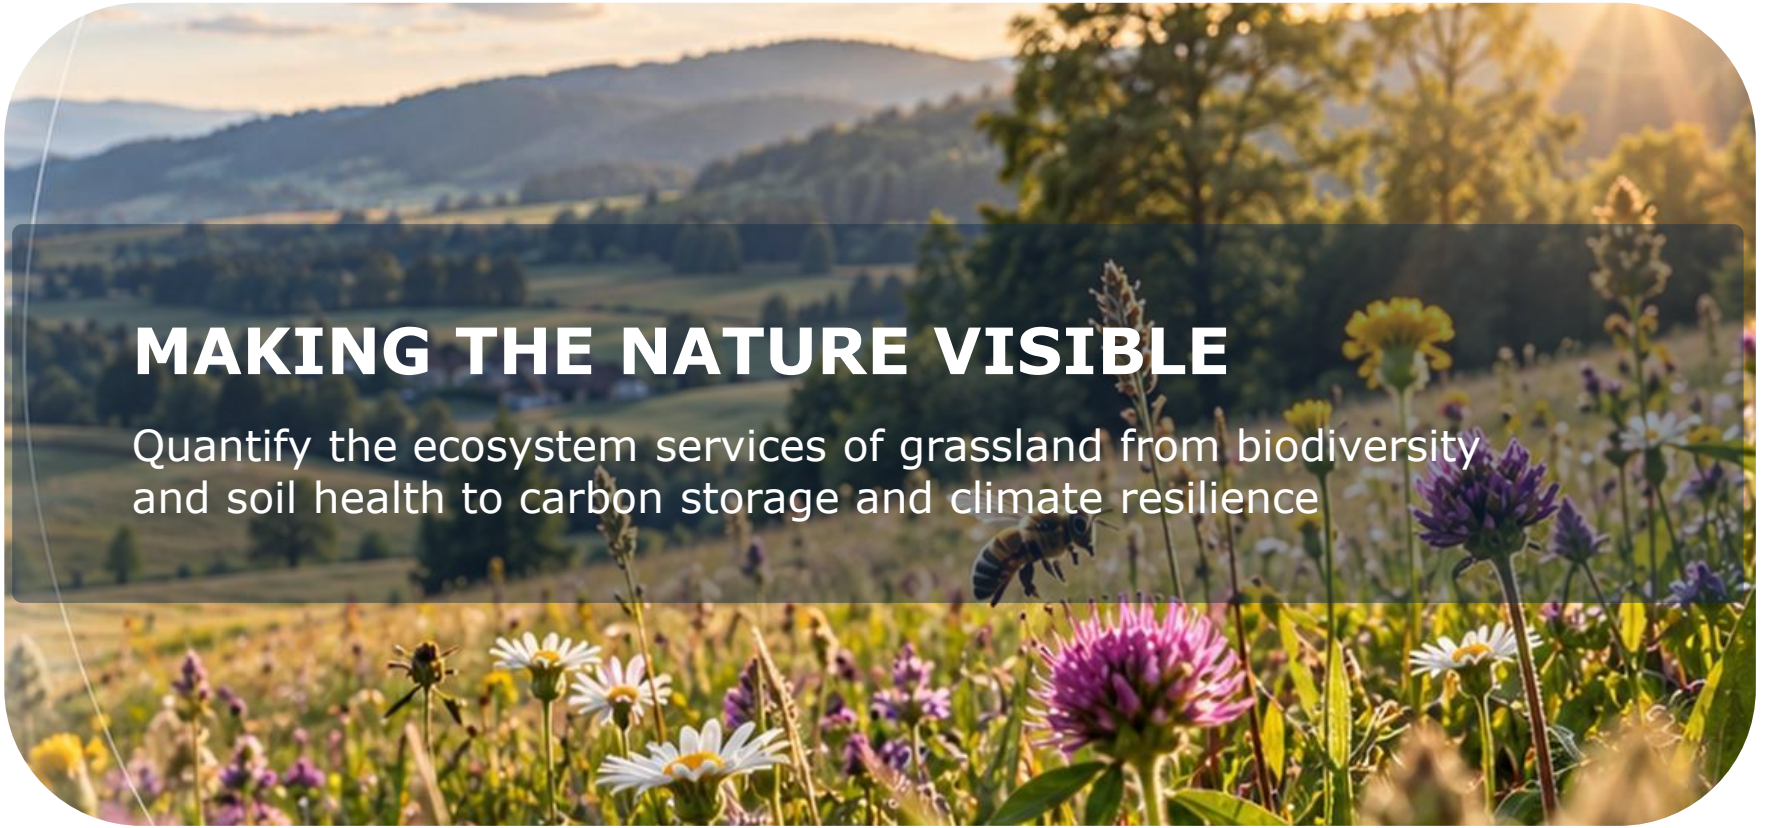

Daniela Ropolo

CNH | Head of Sustainable Initiatives Italy, Africa & Middle East

Antonio Scarazzini

CNH | Institutional Relations Italy, Africa & Middle East

MAKING THE NATURE VISIBLE

Quantify the ecosystem services of grassland from biodiversity and soil health to carbon storage and climate resilience

Permanent Grassland | Germany

The field test

A CNH's customer family-owned livestock farm located in Germany.

The farm features modern facilities and **around 100 hectares** of permanent grassland managed for forage, grazing, and agro-ecological balance.

EVIDENCE OF RESILIENCE

MODERN MACHINERY IS ENGINEERED TO PROTECT THE SOIL

From deep tillage to surgical precision: delivering high-efficiency agricultural operations while preserving soil structure and driving ecological regeneration.

NEW HOLLAND

ECOMONDO 2026 · RIMINI, 3 – 6 NOVEMBRE · HALL D5, STAND 515

FORZA DELLA NATURA

Nella gamma New Holland anche il T6.180 Methane Power

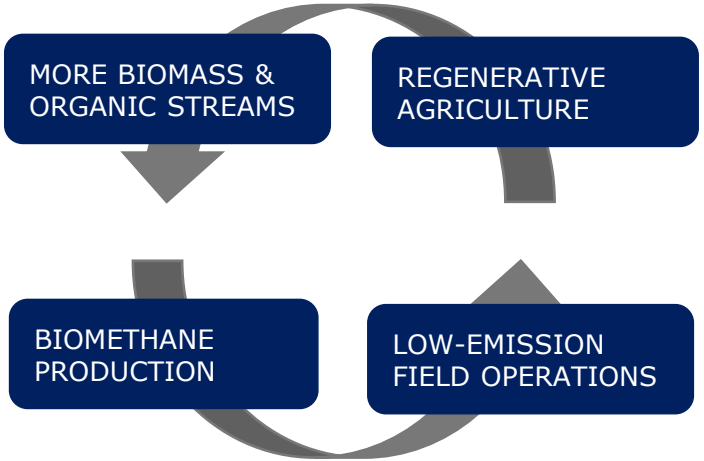

T7.270 METHANE POWER

MINI ESCAVATORE ELETTRICO E25X

From regenerative soils to regenerative energy

HEALTHIER SOILS. RENEWABLE ENERGY. PRODUCTIVE FARMING

The New Holland Methane Power product offer helps **farmers capture additional value from regenerative agriculture practices** by bringing **farm-generated renewable energy** back to the field.

Scaling circular agriculture

Insights from Italy

Lessons learned

POLICY SUPPORT: GSE
PRATICHE ECOLOGICHE

FARMERS ARE WILLING TO **INTEGRATE ENERGY PRODUCTION** AND **FARMING**

CIRCULAR FARMING IS MORE ATTRACTIVE WHEN **PRACTICAL SOLUTIONS ARE AVAILABLE: T6 AND T7**

EVOLUTION TOWARDS A NEW ECOSYSTEM FOR BIOMETHANE IN ITALY: **MECHANIZATION AND REFUELLING**
